Research Manitoba's New Budget

A Message from Dr. Brian Postl, Chair of Research Manitoba Board of Directors

Research Manitoba has a new annual budget of \$15 million, which is a \$2 million reduction from previous years. We will continue to promote and support, and coordinate the funding of, research in the health, natural and social sciences, engineering and the humanities in Manitoba.

The Board of Directors and staff are reviewing our budget and expected expenditures in the short term and will be undertaking a longer term strategic review of our activities. We are committed to keeping our stakeholders and members of the research community informed throughout this process.
