

Research Manitoba's 2021 New Investigators Operating Grants Competition

December 1, 2020

Research Manitoba invites you to apply to the 2021 New Investigator Operating Grants Competition.

This Program is intended to support new investigators in Manitoba to establish independent research programs and achieve the research productivity necessary for obtaining long term research funding from national research funding agencies and/or other external research funding organizations.

New Investigator Operating Grants are two years in duration with the following maximum amounts:

- Health - \$130,000 (\$65,000/year)
- Natural Sciences and Engineering - \$50,000 (\$25,000/year)
- Social Sciences and Humanities - \$40,000 (\$20,000/per year)

Application Deadline: Monday, March 1, 2021 (4:00PM CST)

Letters of Support Deadline Monday, March 15, 2021 (4:00PM CST)

New Page limits for the *Details of the Research Proposal* attachment have been changed to the following:

- Health - maximum 10 pages
- Natural Sciences and Engineering – maximum 6 pages
- Social Sciences and Humanities – maximum 6 pages

New for 2021 Competition Research Manitoba is allowing applicants to provide an additional one page in their *Details of the Research Proposal* to describe the impact of COVID-19 on the applicant's research program as of March 2020.

For more information about the programs, partnership, eligibility, and deadlines [please visit our website](#). You can email helpdesk@researchmb.ca with any questions you may have during the application process.

If you are interested in hosting a presentation on the 2021 Research Manitoba New Investigator Operating Grant competition, please contact Jennifer at jennifer.clearly@researchmb.ca.

Thank you,
Jennifer Cleary
Manager, Funding Programs
